SUMMARY

QA Engineer and Software Tester focused on software quality, test automation and reliable software delivery. Hands-on experience in functional, regression, API, database and usability testing, with a software-development foundation in Python, Java, C#, C++, JavaScript and SQL. Moving toward Test Automation, SDET and Quality Engineering roles.

EXPERIENCE

QINIS

2026 – Present

Independent Project — Design & Engineering

- Designed the API-first architecture and normalized result schema.
- Built the Python and FastAPI service layer.
- Implemented PostgreSQL persistence with an append-only evidence model.
- Containerised the application and wired CI/CD delivery.

Alula Technologies

May 2025 – Apr 2026

Test Analyst Intern · Pretoria, South Africa

- Created and executed 100+ functional, regression, database and usability test scenarios.
- Identified and documented 30+ defects, including high-priority issues with reproducible steps and root-cause analysis.
- Validated 50+ business and technical requirements with developers and stakeholders.
- Participated in 10+ release cycles and contributed repeatable test scenarios toward automation.

C. Steinweg Bridge

Mar 2024 – Nov 2024

Software Tester · Johannesburg, South Africa

- Designed and executed 80+ functional test cases.
- Identified and documented 20+ defects.
- Performed defect retesting and regression validation across software releases.
- Collaborated with developers and stakeholders to investigate defects and clarify requirements.

TECHNICAL CAPABILITY

Test

Functional · Regression · API · Database · Usability

Automate

Playwright · Selenium · JUnit · Cypress

Build

Python · Java · JavaScript · C# · C++ · Go · TypeScript · SQL

Deliver

Git · Docker · CI/CD · GitHub Actions · GitLab CI · Azure DevOps

CERTIFICATIONS

ISTQB® Certified Tester — Foundation Level — ISTQB®

Microsoft Certified: Azure Fundamentals — Microsoft

EDUCATION

UNISA

2026 – Present

BSc Computer Science & Mathematics

WeThinkCode_

2022 – 2024

NQF 5 Systems Development

Wits

2017 – 2021

BSc Construction Studies
